Be Ahead with Sustained Excellence

Be Ahead with Sustained Excellence

If You're Serious about
a Career in Medicine,
You Must be NEET-ready.

It's NEET-ready

Medicine: A Career Choice of Passion

Medicine is among the most preferred career options for the cream of talent at Plus 2 level. In fact, it is only the students with outstanding track record who set their eyes on this extremely noble profession. While it is a hugely challenging career option that needs life-long commitment to serve the suffering, it is heartening to see the passion among the best in the class. If you too share a deep passion for a career in medicine, it is now time to take a giant leap and get ready for the extremely challenging entrance examinations of some of the best institutions in the land - a mere two years from now!

Are You Ready for NEET?

Today's students know of the reputed medical institutions in the country: These include AIIMS, JIPMER, AFMC, MAHE, CMC, St. Johns, ... If you aspire to study medicine in such prestigious institutions, and will write competitive exams by 2014, you must be ready for **NEET**, which will possibly, be the only competitive exam for admission to medical colleges across the country. NEET will replace CET (Medical) & COMED-K at state level and various entrance examinations at the national level.

NEET presents both opportunities and challenges. While the competition will be on a much bigger scale, it also gives students an opportunity to make a giant leap in their performance and seek admission into more prestigious institutions at the national level. You can indeed excel if you have the training support of BASE through ...

Medical Excel: Delivering Conceptual Clarity

Medical Excel from BASE is a distinct edge for students preparing for the toughest of medical entrance exams. BASE believes that conceptual clarity and extreme attention to detail are the key ingredients of success in this area. Consequently, students are provided with a clear understanding of concepts and their applications. A student can actually see a concept at work and is thus able to grasp it more easily.

Course Components

Course Content

BASE has devoted considerable attention to preparing comprehensive study material for several medical entrance examinations. Our faculty have painstakingly assimilated the study material, with the result that they are able to present concepts lucidly and provide clarifications to students' queries in a logical manner.

Classroom Sessions

Classroom sessions are interactive and based on multimedia presentations. Concepts are practically demonstrated by conducting dissection and experiments, wherever necessary. The highly experienced faculty are aware of the stringent standards of the exams and orient the students accordingly.

Assessment

Frequent unit tests and comprehensive tests ensure that the student goes through the material time and again. Tests are conducted every month. These help the student master the subject matter and address the questions from different perspectives. The objective is to facilitate revision of the study material often.

Mentoring

As always, BASE faculty's mentoring and personal guidance will be the difference that will motivate the students and mentally keep them agile for the bigger tests ahead.

How BASE Training Helps Later

Beyond preparation for medical entrance exams, BASE training can transform the learning behaviour of students. Logical problem solving, methodical working methods and competitive outlook are traits they carry in higher learning and in their careers as well. This is the feedback we receive from several successful alumni. So, what is rewarding for us is not the immediate success of our students. It is the transformation our methodology effected in them.

Selection Criteria

Selection tests for the program will be conducted during **March/April 2012**. Classes begin **end-April 2012**.

For Registration and More Information

You can call us or write to us for more information. You can even interact with our student counsellors. For registration, please contact us at the numbers provided.

BASE @ Medical Entrance 2011

44 qualified in various
entrance exams including:

- AIPMT 8
- CMC 2
- St. Johns 1
- CET Medical 5 in Top 10,
18 in Top 100

NEET-Ready

NEET will possibly replace CET (Medical) & COMED-K at state level and various entrance examinations at the national level. Medical Excel is a comprehensive training program whose syllabus covers the requirements of NEET. The program is designed to enable students to excel when it matters most - in NEET!

In essence, BASE enables its students to be better prepared in times of change.

Achievement @ International Olympiads

Medical Excel also enables students to excel in various other competitive examinations. BASE achievers who have represented India and have won medals at international Olympiads include:

Astronomy	Akshay Krishna, Gold Medalist, Poland, 2011 Amit Warriar, Ukraine, 2007
Physics	Harish R, Singapore, 2006 Arjun R, Spain, 2005 Ajit Kumar Nema, South Korea, 2004 Sundeep B, Bali, 2002 Narayan Satyan, Turkey, 2001 Harsha Madhyastha, Italy, 1999
Chemistry	Kishore J, Singapore, 2006 Joish Rajendra Kumar, Taiwan, 2005 Kiran C, Athens, 2003
Mathematics	N R Prasad, South Korea, 2000

11 students
from BASE are
KVPY awardees 2011
